

Dear FCC, Please reject the petition 04-160 from the NAB. I am a subscriber to XM radio for the past year. I pay my monthly service fee of \$9.99 to enjoy my XM radio. I travel to Detroit often, and use XM radio channel number 216 to listen to the traffic and weather since I know that is all that is offered on that channel. I am sure there are many more people out there that listen to AM radio, than those that subscribe to XM. The NAB should invest more time in providing better service to their customers, than rely on government agencies to stop their competition. XM should not even be competition to AM since I have to pay for the service of XM. I can choose to listen to AM, but XM provides more of what I need and what I want. Thank you for listening to me and I hope you consider all the facts when you reject this petition 04-160.
